

Event places

Venues

The Hungarian Railway Museum is a unique and extravagant venue suitable for corporate events, receptions, gala dinners, pop, rock and classical concerts, conferences, training, product shows, family days and other get-togethers. We also provide special attractions (e.g. fireworks from a steam engine, a steam engine "bursting through" a doorway, candle-lit walkways) to make the event unforgettable.

The location of the Museum allows events of any type to be conducted without time or noise restrictions. The Railway Museum is readily accessible by a vintage steam or diesel train from Budapest-Nyugati Railway Station.
